### the planner is laid out as follows

- 1 the anatomy of a staircase – to avoid any confusion shows the basic elements of a staircase and what we call them here at stair makeover solutions
- 2 measuring and counting the treads
- 3 measuring and counting the risers
- 4 measuring half landings
- 5 measuring and counting winders
- 6 halls and landings
- 7 contact details

let's get started

stair make-over is simple, practical and affordable which with a little pre-planning and thought can be used on almost any staircase. just to avoid any confusion here's a couple of diagrams showing the relevant parts of a staircase and what we call them here at stair makeover solutions and in this planner

remember all stairs are different and a picture of your staircase is a huge help to us in ensuring the minimum materials are suggested and the lowest price quoted

### straight flights

straight flights of stairs just consist of treads and risers

the top stair pack transitions stair makeover onto the landing

### half landings

many stairs have platforms within the run of treads and risers to break up the flight

we refer to these as half landings

### turning stairs

stairs that turn corners have shaped treads often of differing sizes

we refer to these as winders

when completing the planner it's best to imagine that you are at the bottom of the staircase ready to go up and treat each staircase separately if there is more than one.

### Step 1 – measure and count the treads

*if your stairway has winders and / or half landings we'll do these next*

**1**

**put your tread measurements here**

my treads are \_\_\_\_\_ mm wide

my treads are \_\_\_\_\_ mm deep

**if your bottom tread is wider than the other treads put it's maximum size here**

**2**

**if your stairway has a curved bottom tread please tick the box** →

**3**

my bottom tread is  mm wide

my bottom tread is \_\_\_\_\_ mm deep

**how many treads do you have?**

count them including the bottom tread but not the landing (this is covered by the top stair pack)

**4**

enter the number of treads you have here →

### Step 2 – measure and count the risers

**5**

**put your riser measurements here**

my risers are \_\_\_\_\_ mm wide

my risers are \_\_\_\_\_ mm high

**if your bottom riser is wider than the other risers put it's maximum size here**

**6**

**if your stairway has a curved bottom riser please tick the box** →

**7**

my bottom riser is  mm wide

my bottom riser is \_\_\_\_\_ mm high

**how many risers do you have?**

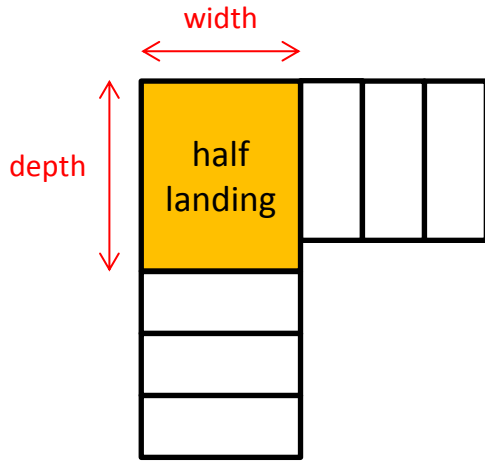

count them including the bottom riser below the first tread but not the one below the landing (this is covered by the top stair pack)

**8**

enter the number of risers you have here →

### Step 3 – measure any half landings

if your stairway doesn't have winders or half landings then please go straight to the next page

9

put your half landing measurements here

my half landing is \_\_\_\_\_ mm wide

my half landing is \_\_\_\_\_ mm deep

### Step 4 – measure any winders

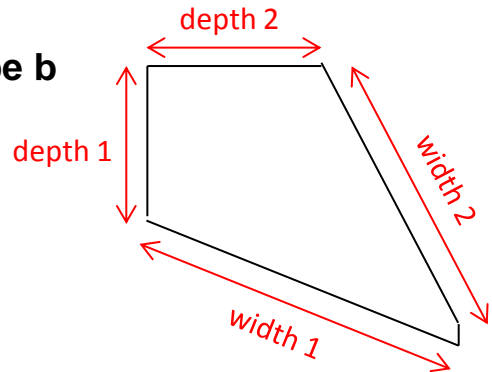

winders can be of differing shapes but the key measurements are maximum depth and maximum width of each and we have provided for up to six winders but of course if you have more just add these on. for each winder choose the appropriate type as illustrated below

type a

type b

enter your winder type and measurements on the table below

10

winder	type a	type b	depth 1 mm	depth 2 mm	width 1 mm	width 2 mm
1						
2						
3						
4						
5						
6						

## Step 5- matching laminate flooring

we supply matching premium laminate flooring suitable for landing and hall use (heavy domestic / general commercial rating) so you can have that seamless co ordinated look

If you would like flooring along with your stair makeover please complete the box/es below

**11**

**enter your hall measurements here**

my hall is \_\_\_\_\_ mm wide

my hall is \_\_\_\_\_ mm deep

**12**

**enter your landing measurements here**

my landing is \_\_\_\_\_ mm wide

my landing is \_\_\_\_\_ mm deep

**if you would like us to provide** a free personalised materials list and quotation with absolutely no obligation then please fill out your contact details below then scan and e mail your planner to
